ATN Night Shadow Gen. 1 Night Vision Binocular

Model : -

Manufacturer : ATN Corp.

ATN Night Shadow Generation 1 Night Vision Binocular.

ATN Night Shadow is a very innovative night vision binocular. It features smart technology proximity sensor that automatically turns the binocular on when it is brought in the viewing position. This new feature will save your batteries and the life of the image intensifier. The ATN Night Shadow comes with 5X magnifying lens and therefore it is designed for long range observation. The ATN Night Shadow has a built-in IR illuminator that allows the user to see objects even in total darkness. The night vision binocular is operated using easy push button digital controls.
